

KoreAI Online - Job application form

CS Fresher 2023/2022 for KoreAI (Graduate Engineer Role)

Role Overview

Join our team that is developing, designing and maintaining technologies that improve the way our clients and the world works. Working in challenging and dynamic environments, using their versatility to create and support technology solutions that meet client requirements from analysis to implementation.

What would you do?

As Graduate Engineer you would largely be involved in:

- Design, build, test, assemble, support and configure application using business requirements
- Understand business drivers that will impact performance and deliver software to those expectations
- Bake technology trends into solutions; Participate in the development of automation solutions, new functionality and technologies and integrate them in existing solutions
- Responsible for incident resolution and support extended to customers through voice interaction/email/chat/remote support

Training and Commitment to work with KoreAI:

- You will be required to undergo technical training for a duration of 12 months
- The training will be conducted by an authorized training provider, details will be provided post your selection to work with us
- You will receive an allowance to pay for the training as part of your Gross Salary

Commitment to work with KoreAI:

- Company will bear the cost of your training and in return you are expected to work with KoreAI for a minimum duration of 18 months
- You will be required to submit a financial security (Documents) as the company will be providing you system and software worth 1,50,000/- to 2,00,000/- as you will have to do Work From Home for a few initial months.

Compensation and Emoluments:

- You will receive an annual compensation of INR 4,50,000/- for Year 1

- For Year 2 (upon successful completion of training), your annual gross salary will be INR 6,00,000/-
